

TECHNICAL DATA SHEET

Goat anti-Human IgA (α chain), F(ab')₂ Fragment - Affinity Pure

Catalog Number: 70-8015

PRODUCT INFORMATION

Contents: Goat anti-Human IgA (alpha chain), F(ab')₂ Fragment - Affinity Pure

Reactivity: Human

Specificity: Human IgA (α chain) F(ab')₂ Fragment

Host: Goat

Cross Adsorption: No

Cross Reactivity: Based on IEP, no reactivity is observed to: · non-immunoglobulin human serum immunoglobulins · light chains on all human immunoglobulins

Concentration: > 4.5 mg/mL

Formulation: 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2 and 0.05% (w/v) Sodium Azide

Reconstitution:

Storage Conditions: Store at 2-8 °C

Use By: 1 year from date of receipt. Prepare working dilution prior to use and then discard.

Purity: > 90% based on SDS-PAGE small amounts of intact IgG may be present

Purification: Affinity purified using solid phase Human IgA

Country of Origin: Goat serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.

PREPARATION & STORAGE

This product was Affinity purified using solid phase Human IgA. Store at 2-8 °C

APPLICATION NOTES

This antibody is suitable for all immunoassay applications. The optimal working dilution should be determined by the investigator. Based on IEP, this antibody reacts with: · heavy (α) chains on human IgA.

Tonbo Biosciences tests all antibodies by flow cytometry. Citations are provided as a resource for additional applications that have not been validated by Tonbo Biosciences. Please choose the appropriate format for each application and consult Materials and Methods sections for additional details about the use of any product in these publications.
