

TECHNICAL DATA SHEET

Goat anti-Mouse IgG (H&L), F(ab')₂ fragment, HRP Conjugate, Cross-Adsorbed

Catalog Number: 72-8096

PRODUCT INFORMATION

Contents: Goat anti-mouse IgG (H&L), F(ab')₂ fragment, HRP Conjugate, min x w/bovine, horse, human, pig or rabbit serum protein

Reactivity: Mouse

Specificity: Mouse IgG (H&L), F(ab')₂ Fragment

Host: Goat

Cross Adsorption: min x w/bovine, horse, human, pig or rabbit serum protein

Cross Reactivity: Based on IEP, no reactivity is observed to: · non-immunoglobulin mouse serum immunoglobulins · serum proteins from bovine, horse, human rabbit or swine

Concentration: Lyophilized

Formulation: Lyophilized, 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free

Reconstitution: Rehydrate with 0.55 ml of deionized water and let stand 30 minutes at room temperature to dissolve. Centrifuge to remove any particulates. Prepare fresh working dilution daily.

Storage Conditions: Store freeze-dried powder at 2-8 °C. Once rehydrated and in solution store at 2-8 °C.

Use By: 1 year from date of receipt. Store lyophilized material at 2-8 °C. For long term storage after reconstitution, dilute with 50% glycerol and store at -20 °C as a liquid.

Purity: > 90% based on SDS-PAGE small amounts of intact IgG may be present

Purification: Affinity purified using solid phase Mouse IgG

Country of Origin: Goat serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.

PREPARATION & STORAGE

This product was Affinity purified using solid phase Mouse IgG. Store freeze-dried powder at 2-8 °C. Once rehydrated and in solution store at 2-8 °C.

APPLICATION NOTES

This conjugate is suitable for Western Blot, ELISA and immunohistochemistry. The optimal working dilution should be determined by the investigator. Suggested starting dilution(κ): · 1:20 - 1:2,000 for most applications Based on IEP, this antibody reacts with: · heavy (γ) chains on mouse IgG · light chains on all mouse immunoglobulins.

Tonbo Biosciences tests all antibodies by flow cytometry. Citations are provided as a resource for additional applications that have not been validated by Tonbo Biosciences. Please choose the appropriate format for each application and consult Materials and Methods sections for additional details about the use of any product in these publications.
